April 19, 2022

Dear Valued Partner,

We are writing to advise of an upcoming price increase, which will be effective July 1, 2022. This price increase serves to absorb the continued rising costs associated with supply chain logistics, raw materials, labor, and general overhead.

As a USA-manufacturer using primarily USA-sourced materials, we count ourselves fortunate in our ability to get our partners quality products in a timely manner. Since 2003, our sights have been for Epicurean cutting boards and kitchen tools to be a functional and durable go-to product you can depend on, for any job in the kitchen, big or small.

Thank you for your business and continued support.

Best regards,
The Epicurean Team
